

Maes y Dderwen Care Home

- Case Study

dlinexsign Ltd worked with contractor Engie and BPA Architects to provide external signs and internal, wayfinding signs for Maes y Dderwen Care Home in Wrexham, Wales.

Externally, we feature directional wayfinding signs, a totem monolith sign and built letters on the front facade of the building. Internally, we feature a range of acrylic signs as specified by the architect and a bespoke bulkhead mounted finger sign for internal wayfinding.
