

Monksmoor Park CE Primary School

- Case Study

dlinexsign Ltd has provided a range of external signs and internal graphics to Monksmoor Park Primary School in Daventry.

Internally, we've created a range of signs, using our patented sign technologies. Our Puzzle™ system provides a secure, lockable sign technology, whilst allowing signs to be easily changed. We've also used iconography to help with wayfinding and direction for young children. Externally, we feature cut letters to the facade of the building and a large totem monolith, displaying key contact information.
