College

# Stratford-upon-Avon College

## - Case Study

xsign were specified by Overbury to provide the signage package at Stratford-upon-Avon College.

The standout external sign is an external halo-illuminated, fabricated totem sign measuring 4m by 5m, featuring the college branding. Other external signage includes a brushed stainless steel entrance sign.

The internal signage package includes wayfinding signs using our patented sign technologies and iconography in the hallways.

xsign has built a strong reputation for signage design, manufacture and install at education facilities.

The fabricated halo-illuminated external sign is a standout feature that welcomes students and visitors. It is fixed with a secure concrete cage.

We have used our patented Puzzle sign system on the doors of teaching rooms and staff rooms. Puzzle enables the easy switching of paper inserts if the use of the room changes.

The hallways feature projecting signs with iconography that displays key facilities, such as the toilets.
