

SHIRELAND  
TECHNOLOGY PRIMARY

# Shireland Technology Primary School

## - Case Study

xsign were specified to provide the signage package at Shireland Technology Primary School in Smethwick, West Midlands.

The external signage comprises 20mm thick aluminium cut letters and a bespoke logo graphic, fixed to the outside of the building with secure anchors, as well as cut letters around the entrance points.

The internal signage comprises 3mm thick cut numerals to denote the floor levels and printed graphics in the reception area and a 5mm thick directory sign.

We have manufactured and installed cut aluminium lettering to provide colourful wayfinding to the exterior of the school.

Floor level indications provide clear and easy wayfinding for students and staff.

The external signage featured the school branding, using 20mm thick aluminium cut letters and automotive grade paint, for a long-lasting finish.
