

# The Ladder School and Studio Sixth Form

## - Case Study

xsign were specified to provide the external and internal signage scheme at The Ladder School and Studio Sixth Form in Walsall.

The external signage scheme includes 3mm thick aluminium cut letters on the side of the school entrance with a face-coated high grade paint finish, a post and panel sign, a series of external aluminium school entrance signs and external ID signs.

The internal signage scheme includes 3mm cut letters in the reception area welcoming students, staff and visitors, a range of brushed stainless steel toilet and facilities signs and tags, reverse coated floor level indicators and our patented Puzzle sign.

The internal cut letters in the reception area features 3mm thick, profile cut frosted lucite lettering with a high polish edge detail and a matt texture finish.

The external entrance sign uses 3mm thick aluminium with a grounded and smoothed edge finish. The face is coated with high grade paint finish in a branded grey

A reverse coated floor level indicator sign features throughout the building. We've used direct digital print at 1800dpi for super high resolution legibility.
